

# Van Conversions

WHO SAYS THE FUN OF  
GOING PLACES HAS TO WAIT  
UNTIL YOU GET THERE?

**Think about your favorite driving destinations.** They may be yearly vacations, or weekend getaways. They may be days at the beach for the whole family, or tailgate parties. Or just maybe you simply relish the idea of being able to go places in as much comfort and luxury as you could hope for. Or all of the above.

This is precisely what van conversions are all about, and illustrates why they are available with a wide variety of stylized interiors and exteriors. The advantage to you is that you can personalize your van to fit your individual lifestyle. And this will enable you to make sure the fun of going places starts the moment you climb aboard.

**FORD ECONOLINE – The Right Choice For Your Van.**

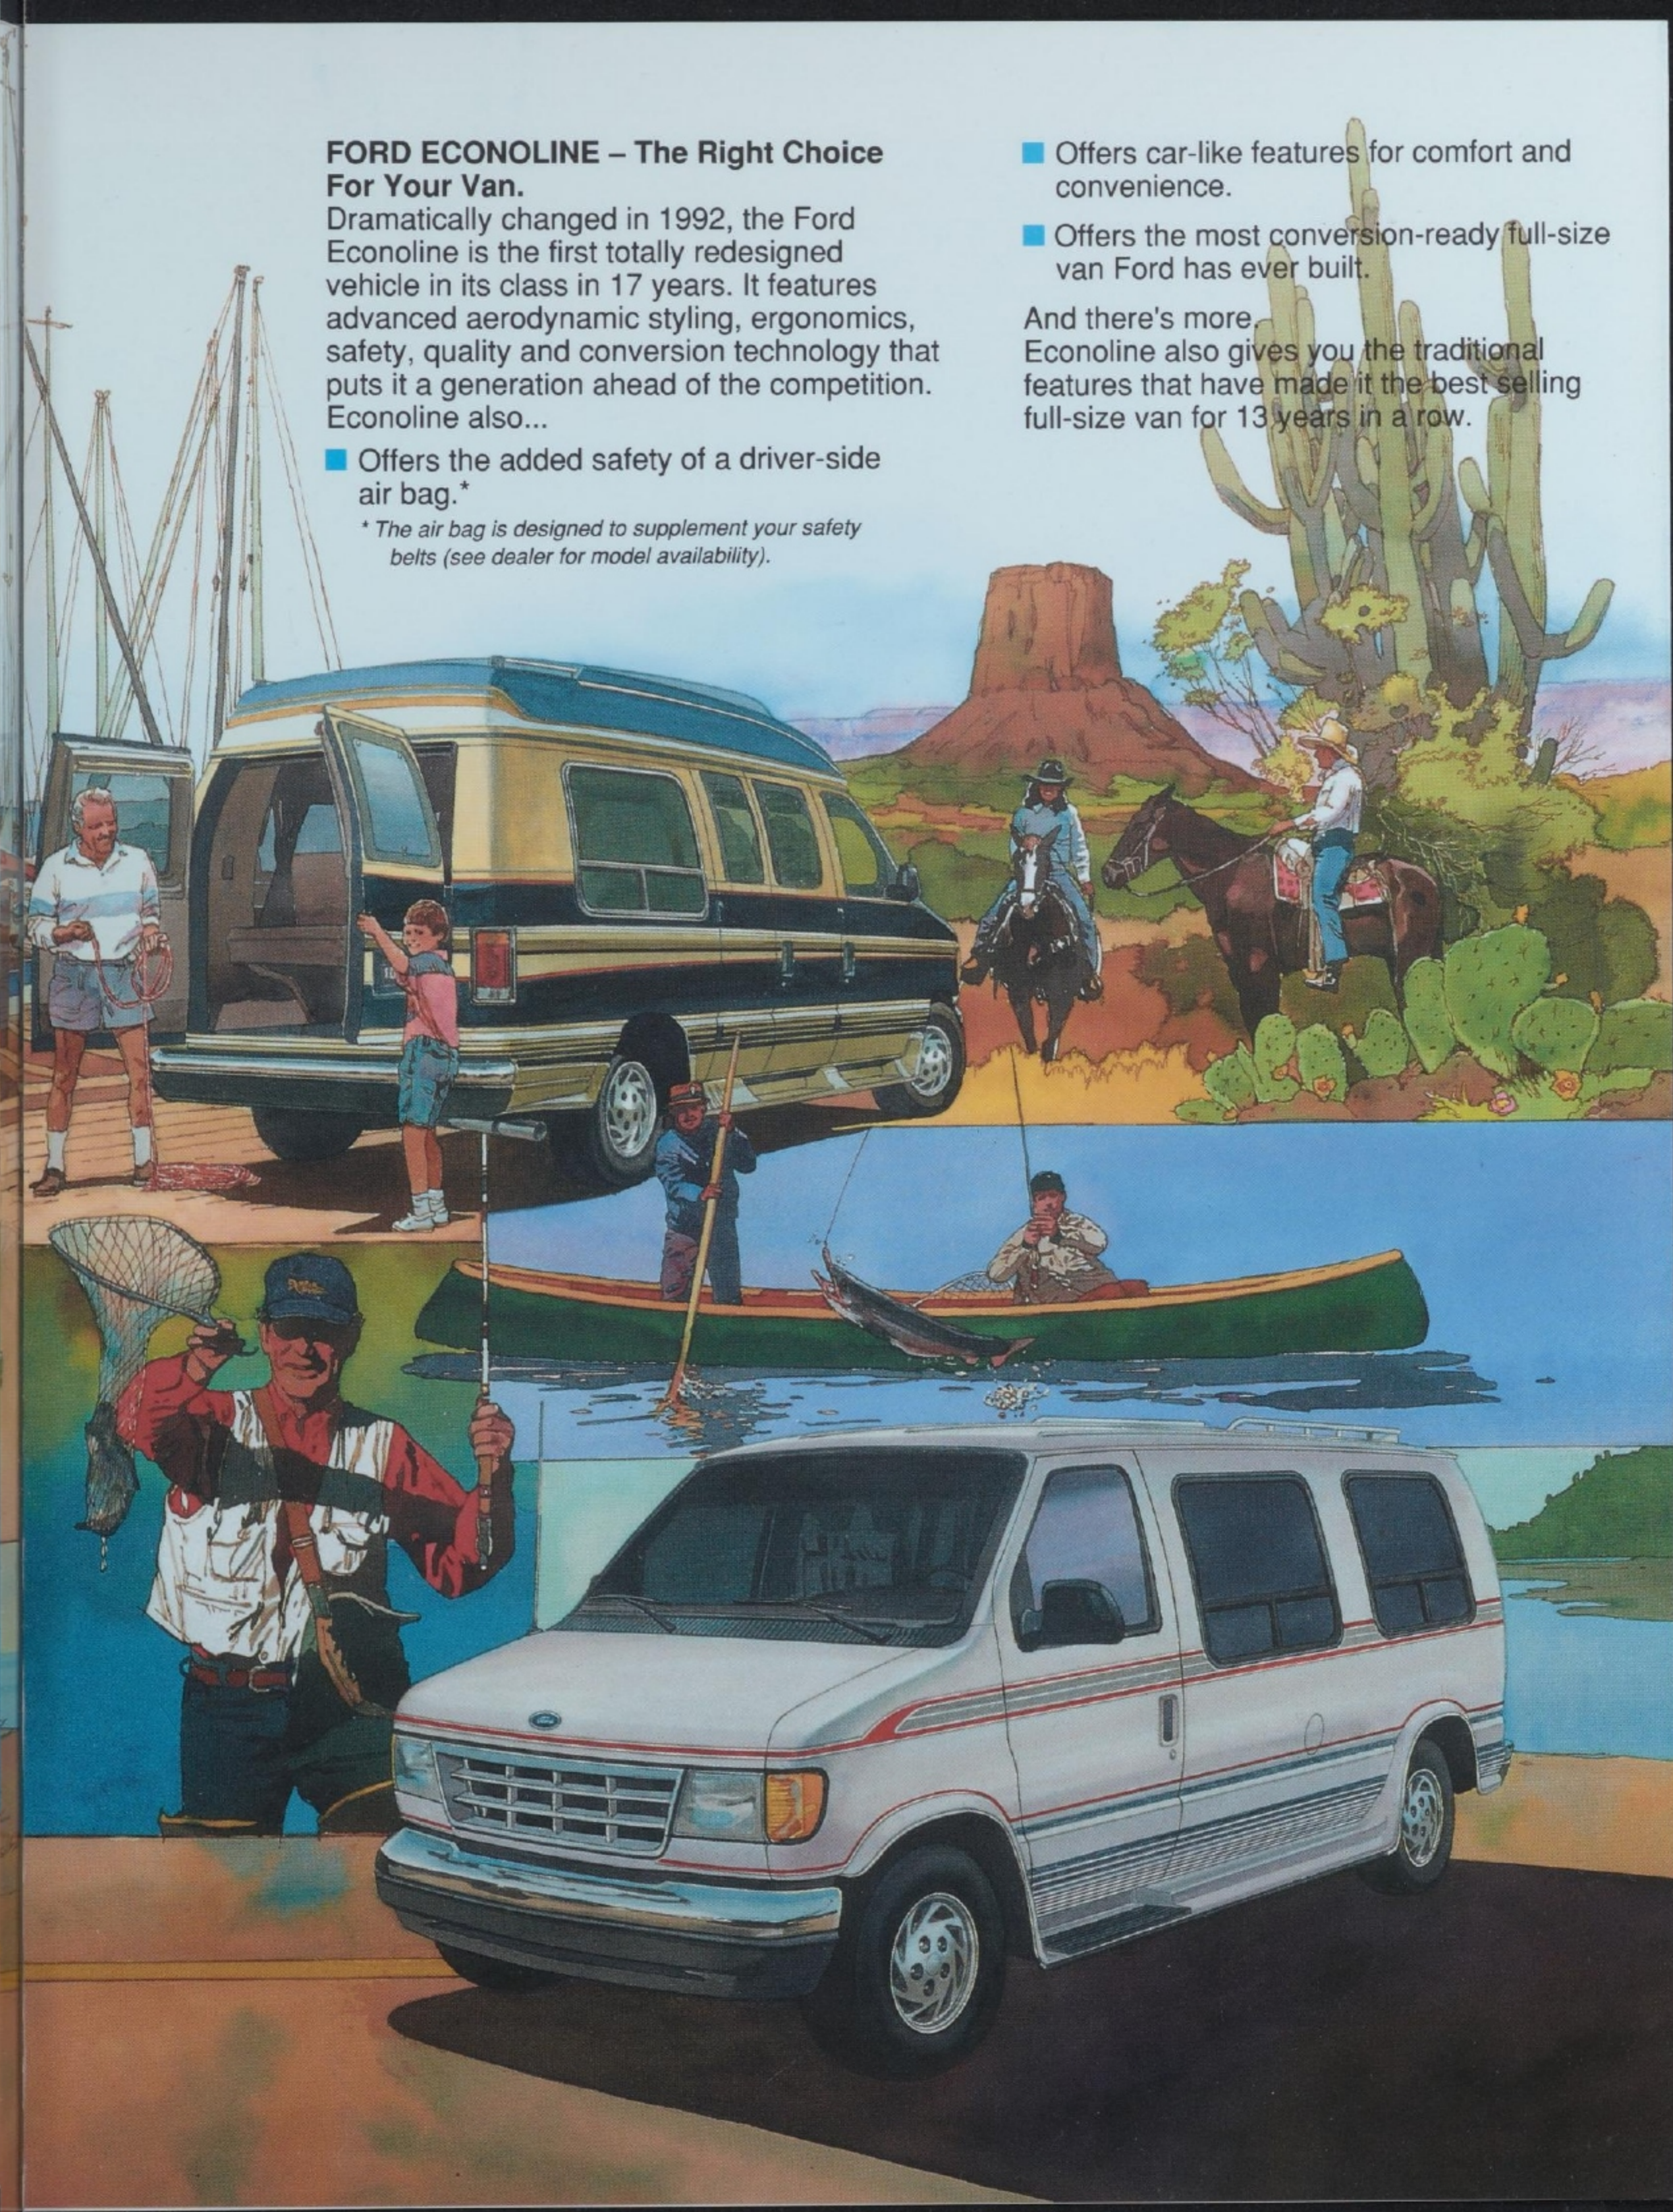

Dramatically changed in 1992, the Ford Econoline is the first totally redesigned vehicle in its class in 17 years. It features advanced aerodynamic styling, ergonomics, safety, quality and conversion technology that puts it a generation ahead of the competition. Econoline also...

- Offers the added safety of a driver-side air bag.\*

\* The air bag is designed to supplement your safety belts (see dealer for model availability).

- Offers car-like features for comfort and convenience.
- Offers the most conversion-ready full-size van Ford has ever built.

And there's more... Econoline also gives you the traditional features that have made it the best selling full-size van for 13 years in a row.

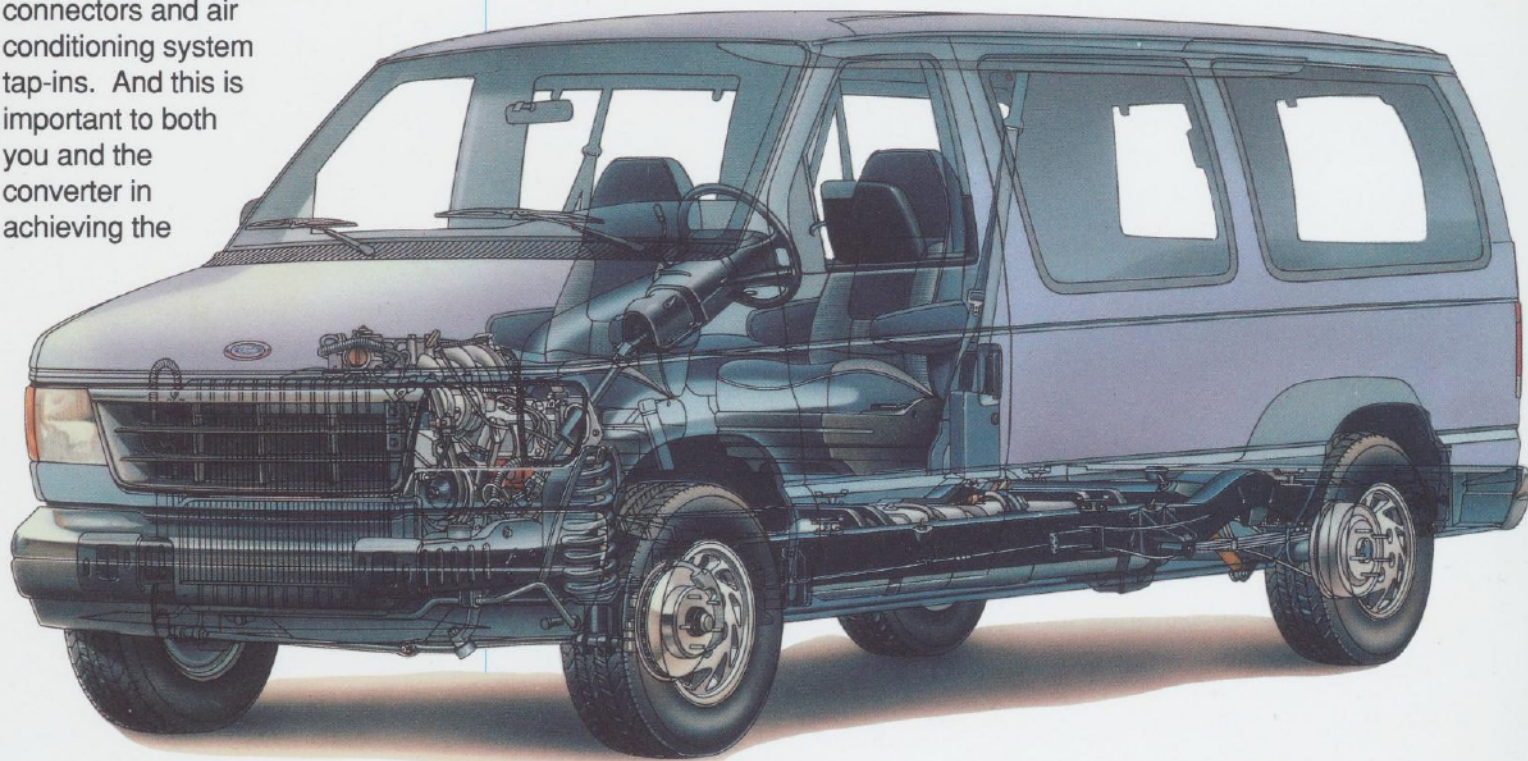

# FORD ECONOLINE

Designed With Your  
Van Conversion In  
Mind

Ford engineers and designers worked closely with conversion companies throughout Econoline's entire development process. Their goal: make it as conversion-ready as possible. Proof that they succeeded is seen in special Econoline features, such as centrally located electrical connectors and air conditioning system tap-ins. And this is important to both you and the converter in achieving the

- Econoline is the only van in its class to offer the security of a standard driver-side air bag, as a supplement to the 3-point safety belts.
- Exclusive out-front design provides more usable interior space, more convenient front seat entry/exit and easy engine access for routine maintenance.
- Only full-size van with the strength advantages of body-on-frame construction.
- Ladder-type frame provides direct attachment points for weight-distributing trailer towing hitch.
- Low hood line and large window openings for excellent visibility.
- Standard computer-controlled rear anti-lock brake system for more controlled vehicle braking and straight stops under most operating conditions.
- Advanced styling provides a streamlined .39 Cd (coefficient of drag) for reduced wind resistance and a quieter riding environment.
- Standard 35-gallon high-capacity fuel tank extends operating range between fill-ups.
- Under-body mounted spare tire frees up interior space for greater conversion flexibility.
- 60/40 swing-out side cargo doors provide convenient access to the rear seating compartment.

highest possible product quality. Overall, the best conversion begins with the best van. And here are some of the reasons we believe Ford Econoline is best for your van conversion.

- Exclusive Twin-I-Beam front suspension provides ride smoothness and control.
- Rear suspension features 2-stage variable-rate leaf springs and nitrogen gas-pressurized shock absorbers for rear seat ride comfort.
- Standard power-assisted steering system is engineered to deliver positive on-center feel and excellent overall handling responsiveness.
- Computer-controlled multi-port electronic fuel injection provides excellent starting characteristics.

## FORD ECONOLINE

Gives you ample  
room to express  
yourself

Up to 254.9 cubic feet, to be exact. And this translates to generous interior space for the creature comforts you prefer. When it comes to deciding which combination of special features to select, let your lifestyle be your guide. Your family-room-on-wheels

can contain a variety of comforts and conveniences, including:

- Special seating layouts
- Large bay windows
- Special radio and sound systems
- Special interior lighting, trim and carpeting
- TV and video tape player
- Computer games
- Raised roofs
- Drink holders
- Storage compartments
- And much more, to ensure that you will have just as good a time getting where you are going as you will being there.

Choose from a wide selection of high-tech audio systems designed to enhance your listening pleasure.

(Note: features listed are for E-150 van as typically equipped for conversion applications).

Econoline is designed to be the highest quality full-size van Ford has ever built. Exacting fit and finish—inside and out—enhances its appearance. Plus, advanced aerodynamic styling and a door sealing system that contribute to a quiet riding environment.

Select the components you desire to build your own entertainment center.

Individualize the driver's "cockpit" area with a diverse selection of equipment within close reach.

Richly finished interiors add to an enjoyable driving experience.

## ECONOLINE IS A TRAILER TOWER'S BEST FRIEND

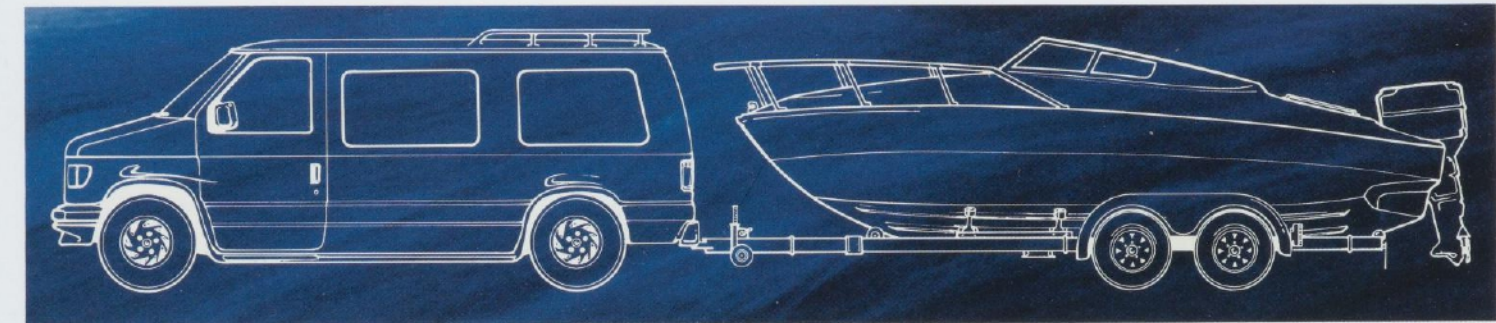

Econoline offers excellent trailer towing capability. And, as the chart shows, it's easy to match towing power to your towing need. Econoline gas engines feature multiple-port electronic fuel injection, which helps ensure easy starting and smooth overall operation. Teamed with the 4-speed automatic overdrive transmission, you have an ideal trailer towing combination.

What's more, Econoline gives you your choice of towing packages to help meet your specific needs:

- The Maximum GCWR column shows the maximum allowable combined weight of vehicle, trailer and cargo (including passengers) for this engine/axle ratio combination.
- For your day-to-day towing needs (2,000 lbs. maximum trailer and cargo combined) the standard Class I towing package is ideal.
- For heavier duty towing requirements the optional Class II/III/IV package is recommended.

### FORD ECONOLINE VAN TRAILER TOWING SELECTOR (REGULAR VAN) Maximum Loaded Trailer Weight (Lbs.) – Automatic Transmission

Engine	Axle Ratio	Maximum GCWR (Lbs.)	E-150	E-250
4.9L (300-CID) EFI I-6	3.08	9,000	3,900	--
	3.54	10,000	--	4,800
	3.55	10,000	4,900	--
	3.73	10,500	--	5,300
5.0L (302-CID) EFI V-8	3.55	11,500	6,400	--

SCENIC MOUNTAIN OVERLOOK

## Bumper-To-Bumper Coverage

The 36-month/36,000-mile bumper-to-bumper coverage of Ford's new vehicle limited warranty covers the complete vehicle (except tires, battery, service adjustments and other items covered under separate provisions) against defects in factory-supplied materials or workmanship. For complete information, see your Ford Dealer.

NOTE: Warranty coverage of any conversion work done by an outside company is the sole responsibility of said company.

## Product Changes

Following publication of this catalog, certain changes in standard equipment, options, prices and the like, or product delays, may have occurred which would not be included in these pages. Ford Division reserves the right to change product specifications at any time without incurring obligations.

NOTE: Your Ford Dealer is your best source for up-to-date information on both Econoline and van conversions.
